

Quiz 2 (formerly known as quiz 1)

CPSC:480 Software Engineering, 8/31/22

Choose and answer 4 of the 6 following questions. One sentence per answer is adequate. 2 points for a valid answer, 1 for a partially correct answer; total of 8 possible points. **Do not answer more than four.** Mark the boxes by the ones you're answering. Use the back if you need extra space.

1. ☐ Name an important figure in the history of software and one of their contributions. You may use an example not covered in class if you have one.
2. ☐ Give a definition of software in your own words.
3. ☐ Describe one of the seven classic software application domains.
4. ☐ Describe one phase of a typical software development process.
5. ☐ Describe one of the four types of software maintenance.
6. ☐ Describe one of the 12 Agile Alliance Principles.
